

John - finishing room remains our biggest cost & a huge bottleneck. Just done the sums, this Zünd machine saves it's cost twice over, from day of install. In fact the savings will fully fund the finance on that UV printer you've been banging on about! An absolute no brainer!! Mike

You can produce 100s of metres of print an hour, but how many staff does it take to finish it?
It's time to consider automated Zünd finishing...

Return on investment

Manual Finishing vs Zünd G3 Finishing

Finishing a typical 2m x .5m banner (No. of items)	Manual finishing with 3 staff	Zünd finishing with a single operator
1 item	3 minutes	20 seconds
150 items	7.5 hours	50 minutes
600 items	30 hours	3.5 hours
